

SAFETY OF WOMEN : OUR PRIME CONCERN

“A society that is unable to respect, protect and nurture its women and children loses its moral moorings and runs adrift.” (The Hindu- Opinion Sept, 15 2012)

The Vedas glorified women as the mother, the creator, one who gives life and worshipped her as a ‘Devi’ or Goddess. Centuries have come, and centuries have gone, but the plight of majority of women is still pathetic, to say the very least. Time has helplessly watched women suffering in the form of discrimination, oppression, exploitation, degradation, aggression and humiliation. Women remained subjugated and oppressed worldwide because society believed in clinging on to orthodox beliefs for the brunt of violence—domestic as well as public, physical, emotional and mental.

*No one can make you feel inferior, without your consent –
Eleanor Roosevelt*

The UN general Assembly in its “Declaration on the Elimination of Violence Against Women (VAW)” defines VAW as any act of gender based violence that results in or is likely to result in physical, sexual or mental

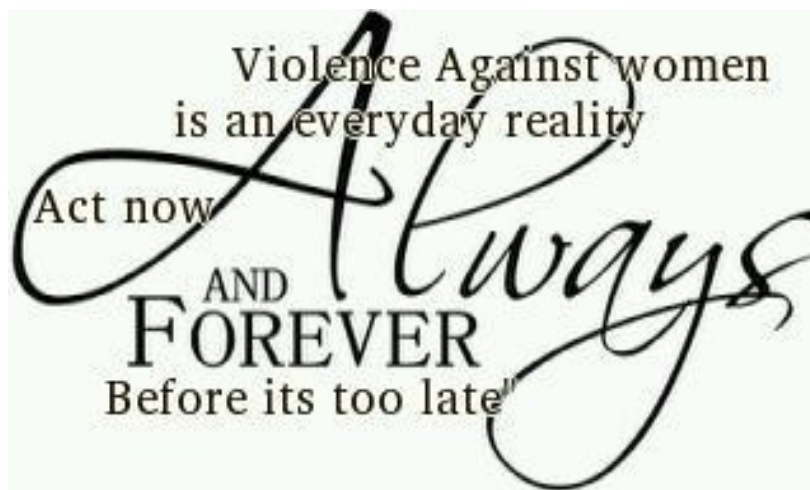

harm or suffering to women, including threats of such acts, coercion or arbitrary deprivation of liberty whether occurring in public or private life.

Violence against women both violates and impairs or nullifies the enjoyment by women of human rights & fundamental freedoms.....As a largest democracy in the world; we have to ensure safety of women.

We, at B.P.S Govt Medical College for Women, strongly believe in fairness and justice for women. After all, they are future doctors, who will care for the suffering humanity with limitless potential. We implement safety guidelines issued by the authorities in letter & spirit so as to provide safe and secure environment to our students to enable them to work with dignity and due respect.

Approach of BPSGMC for Women, Khanpur Kalan to ensure the safety of women:-

1. Constitution of gender harassment committee:- Members of the committee periodically address the students and female employees and advise them regarding proper conduct to ensure their own safety. They also encourage them to report any matter of this kind to the members & are assured that prompt action will be taken against the perpetrator.
2. It is a fully residential Medical College. Male and Female security guards are employed in the Hostel Premises round the clock.
3. The College premises is properly lighted.
4. CCTV cameras are installed at critical spots in Hospital, College and Hostels.
5. Telephone numbers of police authorities and women helpline are displayed prominently at various places.
6. Regular police patrolling is done in the Campus in the evenings.
7. A Police Post has been established in the Hospital Premises.
